

Job Title: Technology Intern
Department: Operations
Location: Remote
Duration: Semester Based (Fall, Spring, Summer)
Credit Opportunities: Available
Compensation: Paid and Unpaid Positions Available
Weekly Hours: 3-10 hours per week

Value Proposition:

Join the Text Student Auto team as a Technology Intern and embark on a transformative journey to sharpen your technical skills, gain hands-on experience in software development, and contribute to a cutting-edge platform that enhances the automotive and educational experience for college students. This internship offers an immersive learning environment, mentorship from tech experts, and the opportunity to work remotely from your preferred location.

Qualifications:

- Pursuing a degree in computer science, software engineering, or a related field
- Strong programming skills in languages such as Python, JavaScript, or Java
- Familiarity with web development, including front-end and back-end technologies
- Eagerness to learn and apply new programming languages and frameworks
- Ability to work independently and collaboratively within a fast-paced team environment
- Strong problem-solving skills and attention to detail
- Previous experience with web or mobile app development is a plus
- Enthusiasm for the automotive or education industry is highly regarded

Responsibilities:

- Collaborate with our tech team to develop and maintain web-based applications
- Contribute to the design, coding, and testing of new software features and enhancements
- Assist in troubleshooting and resolving software defects and issues
- Participate in code reviews to maintain code quality and best practices
- Collaborate with cross-functional teams to understand project requirements and goals
- Stay updated on emerging technologies and programming languages
- Work on various technology projects and tasks as directed by the tech team
- All other duties as required

Learning Opportunities:

- Gain hands-on experience in web development using modern programming languages and frameworks
- Collaborate with seasoned tech professionals to develop software solutions and resolve technical challenges
- Enhance your problem-solving skills through troubleshooting and debugging real-world software issues
- Contribute to the entire software development lifecycle, from design and development to testing and deployment
- Gain exposure to emerging technologies and trends in the tech industry
- Apply your knowledge and skills to real-world projects with a meaningful impact
- Opportunity to earn academic credits through your internship, subject to your school's policies

Benefits:

- Acquire practical skills in web development and software engineering
- Work alongside a dedicated tech team within a dynamic startup environment
- Paid and unpaid positions available
- Opportunity to earn academic credits through your internship
- Gain exposure to innovative technologies and contribute to a mission-driven organization
- Flexible, semester-based commitment to accommodate your schedule

Are you ready to step into the world of software development, collaborate on cutting-edge tech projects, and make a tangible impact on college students' lives? If you are passionate about technology and eager to expand your skill set, we invite you to apply for the Technology Internship at Text Student Auto and be part of our mission to empower students through innovative solutions.

Please note that due to the high volume of applications we receive, we regret that we may not be able to respond to every applicant individually. Only candidates selected for further consideration or an interview will be contacted. We appreciate your understanding and thank you for considering Text Student Auto as a potential employer.
